

Archbishop Curley iPad Specifications

The iPad should be the current model sold by Apple on their website with minimum 32GB of storage. The iPad Mini is **not allowed** by the school. The screen is too small for school use.

Please note: The minimum 32GB is sufficient for schoolwork. However, if you plan on using this iPad for personal use at home then a larger storage size is strongly recommended.

We strongly recommend AppleCare+. iPads get dropped and screens may crack on impact. Please see below for more information on AppleCare+.

iPad Name	iPad Model	Storage	Education Price
